## OPEN VEIN OF GILSONITE.

Raven Mining Company Strikes Big Proposition on Reservation.

(Special to The Herald.)  
Price, Sept. 26.—The Raven Mining company, which has for the past four or five years been prospecting for minerals on the Utah Indian reservation, has been thrown open to the settler and prospector in March next, recently discovered. The vein of first grade gilsonite about two and a half miles to the north of Fort Duchesne military reservation and directly alongside the wagon road to White Rocks Indian agency.

The vein is a fissure and well in place, straggling about five feet in width and right on top of ground. Its depth is as yet unknown, but as the vein is the same as is being worked by the Gilson Asphthum company off the reservation, the new find is regarded as being about the highest proposition in the Indian country. Two carloads of the gilsonite from the new property, is in the yards of the Rio Grande Western railroad at Price and will be sent out to the east during the present week.

The Raven company has heretofore found only clastic in Indian canyon un-der its concessions for prospecting. However, it has had numerous parties out all summer looking for other minerals in view of the early opening of the reservation to settlement. The company is entitled under its grant to 60 acres of mineral ground. This last find will be included in its permanent holdings.

Prospectors and others in great number have been flocking to the reservation of late, but as soon as across the line, are first off under instructions from the Indian agent at White Rocks. Soldiers and Indian police are each doing patrol duty.

## RECEIVES PAINFUL WOUND.

Accidental Discharge of Gun Tears Hunter's Hand Badly.

Park City, Sept. 26.—Charles Meyers met with a painful accident while out shooting on Thursday. His shotgun going off accidentally, Mr. Meyers was standing with his hand partially over the muzzle of the gun when it went off, and the thumb and fingers, completely taking out the fleshy part of the hand. Dr. Ward dressed the wound and the injured man is getting along as well as can be expected.

The funeral of Mrs. C. L. Pierce was held this afternoon from the Catholic church.

Mr. O. Young had the old postoffice building refitted and the new office there for the McLaughlin estate. Eric Nelson, who was hurt at the Ontario yesterday evening, is now going off a strainer, and who at first was thought to be fatally injured, is not so badly hurt. In his fall he struck against a wall, which broke the force of his fall, and to this fact he doubtless owes his life. As it is, he is severely cut up about the head and face, but will be around again in a short time.

A. B. Weaver, Summit county's member of the Democratic committee, returned this morning from Salt Lake, where he has been in the interest of the Democratic of Summit county.

Mr. S. Aschheim, a former Parkite, is in Park City today in the interest of several mining speculators.

W. H. Weber came up to Park City today for a short trip.

P. L. Larson spent the day in Park.

W. I. Snyder is in Park.

M. L. Condon of Salt Lake, who has been spending a few days in Park City, returned to the city this afternoon.

## INJURED BY A GIANT CAP.

Miner Receives Bad Cuts Over Body Through Explosion.

Richfield, Sept. 26.—Hans Johnson, whose home is in Richfield, was pretty badly shaken up and bruised as the result of a giant cap explosion at the Annie Laurie mine a few days ago. He had the cap in his hand and does not know what caused the explosion. His right side and arm were for a time thought to have the sight destroyed, but the present indications are that he will be all right.

Orders to dig sugar beets have been received in every district in this county, and special trains of the beets are going to Lehi as fast as they can be made up.

While the acreage is so much larger than last year, the total tonnage will probably be a little more than that of last season, but owing to the high price of beets, found in every district this year, there are very few patches that will come up to the yield per acre of last year.

Andrew Bertelsen, one of the leading farmers of Monroe, died Wednesday following an attack of emphysema and kidney trouble. He was one of the early settlers of Monroe and has been prominent in business circles for years.
